OUR TECHNOLOGY

HYPERVOLT / HYPERVOLT PLUS

The Hypervolt and Hypervolt Plus deliver a symphony of power, performance, and variability. 30% more powerful than the Hypervolt, the Hypervolt Plus is the strongest and most advanced percussive massage device in the world. They use QuietGlide™ technology to deliver three speeds of rapid percussion almost silently. The quietest percussive massage devices you can find, now fully connected for automated use with the Hyperice App.

HYPERVOLT / HYPERVOLT PLUS BENEFITS

- Accelerates warmup and recovery
- Reduces muscle soreness and stiffness
- Enhances muscle performance
- Improves range of motion and flexibility

VYPER 2.0

Featuring all the traditional benefits of foam rolling amplified by three powerful speeds of vibration, the Vyper 2.0 is the world's most powerful vibrating fitness roller.

VYPER 2.0 BENEFITS

- Accelerates warmup and recovery
- Reduces muscle soreness and stiffness
- Enhances muscle performance
- Improves range of motion and flexibility

HYSPHERE MINI

The high-intensity vibrating Hypersphere Mini can be used for trigger point release on your tightest muscles.

HYSPHERE MINI BENEFITS

- Accelerates warmup and recovery
- Reduces muscle soreness and stiffness
- Enhances muscle performance
- Improves range of motion and flexibility

VENOM LINE

The Venom line are digitally connected wearable devices that combine heat and vibration to warm, loosen, and relax stiff muscles featuring a premium Plush™ neoprene compression wrap that holds heat and vibration right where you need it most. (Available for back, shoulder, and leg.)

VENOM LINE BENEFITS

- Relaxes tense muscles
- Reduces joint pain and stiffness
- Increases body temperature

HYPERVOLT GO

Portable percussion at 1.5 pounds, the GO was designed with your active lifestyle in mind. With surprising power and near-silent operation, the Hypervolt GO provides serious relief at home or on the road.

HYPERVOLT GO BENEFITS

- Accelerates warmup and recovery
- Reduces muscle soreness and stiffness
- Enhances muscle performance
- Improves range of motion and flexibility
